EDITOR'S NOTES

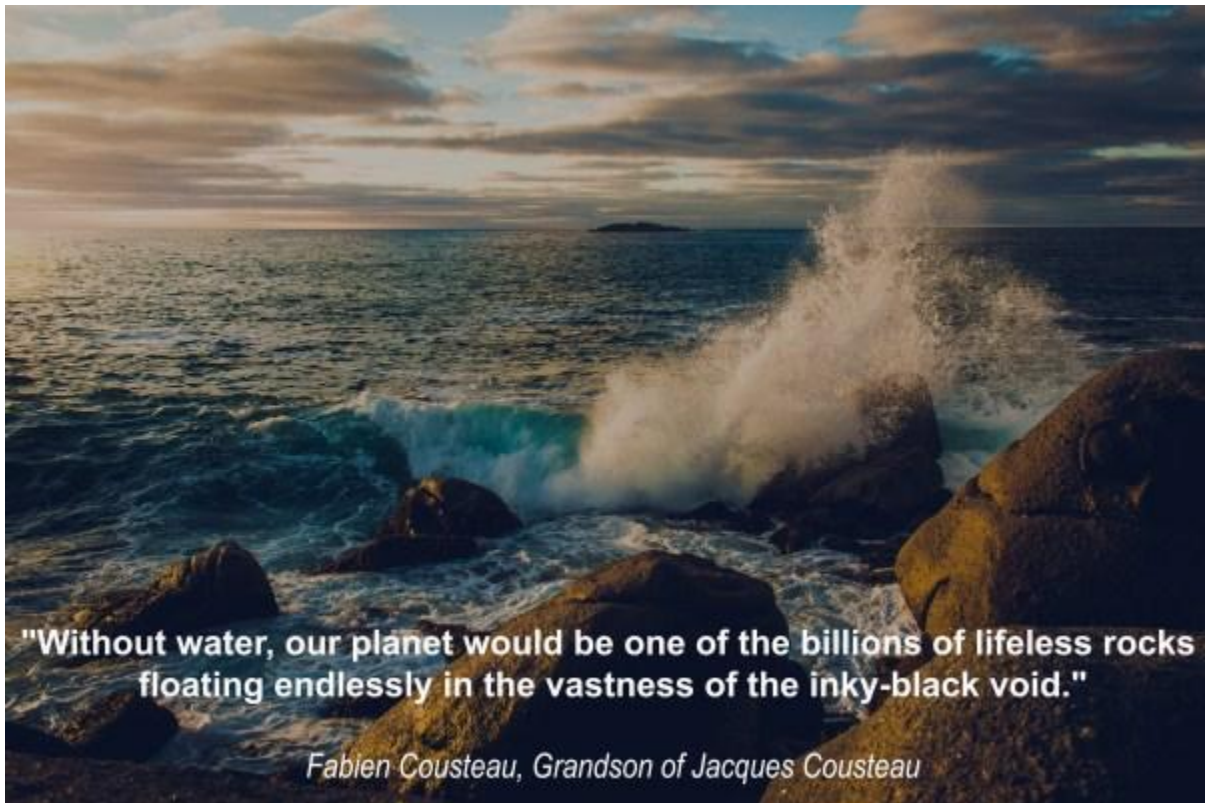

Why the nights are getting brighter?

Light pollution is even worse according to the German-led team, because the sensor used cannot detect some of the LED lighting that is becoming more widespread, specifically blue light.

Spread of light pollution is bad for the environment, animal life and humans, five-year study concludes.

FACTS OF THE WEEK – TO SHARE WITH FRIENDS AND FAMILY

- Over 200 million people are directly or indirectly employed by marine fishery sector and 3 billion depend on oceans for their primary source of protein
- Global warming has led to increased frequency and intensity of storms causing increased deaths and devastation around the world
- 90% of the 1.24 million global road deaths happen in low and middle income countries and poor provision for pedestrians and cyclists in urban areas in developing countries results in up to 75% of road deaths being to such road user groups

We are pleased to brief you on latest events, progress and issues addressed under each of the SDGs as grouped into the 5Ps -

People, Planet, Prosperity, Peace, Partnerships:

PLANET

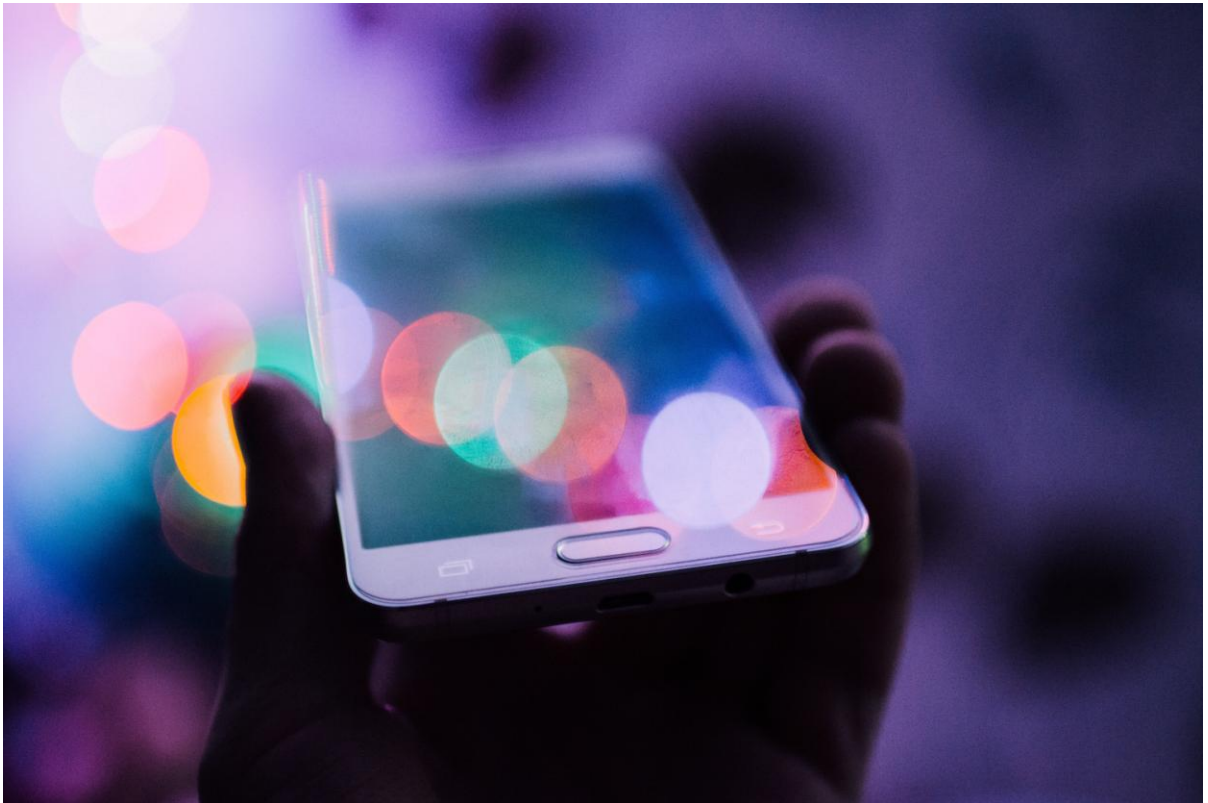

Male seahorses are the ones who carry children and give birth. And when they do, they can produce up to 2,000 babies at one time.

PEOPLE

Meet the Heroes Who Protect the Last Northern White Rhinos in the World

PROSPERITY

Reduce, Reuse, Reboot. Electronic recycling

Eighty percent of our electronic waste ends up in emerging and developing countries.

Climate change is a terrible problem,
and it absolutely needs to be solved.
It deserves to be a huge priority.
