SDG # 8 - Good Jobs

The facts

1. 470 million jobs are need for new entrants to the job market in the next 15 years
2. 736 million people live on less than $1.90 per day so cannot afford access to technology
3. 40% of the poor work in agriculture and earn very low wages

What does POVERTY mean?

(Please share with friends, family and work colleagues and encourage them to join our community and help create a safer, fairer world for all)

📌 "**Poverty** is not having enough material possessions or income for a person's needs.[2] Poverty may include social, economic, and political elements.

Absolute poverty is the complete lack of the means necessary to meet basic personal needs, such as food, clothing, and shelter.[3] The threshold at which *absolute poverty* is defined is always about the same, independent of the person's permanent location or era."
