“Since the COVID-19 outbreak, we have witnessed a big shift in attitude, our economy, and our public routine. Social distancing regulations and this forced break, compromised our buying ability that made many of us re-examine our consumer priorities, as well as allowing space for influential leaders and companies to focus on the more pressing global and climate issues at stake. All of these nuanced changes will ultimately shape-shift our culture and carve a new normal for our lives in the way we relate to businesses, sustainability, and lifestyle.”

SDG # 10 - Reduced Inequalities

The facts

- 75% of persons now live in societies where income distribution is more unequal
- 736 million live in extreme poverty and live on less than US\$ 1.90 per day
- Children of the poorest 20% are 3 times more likely to die before age of 5 than those of richest

Find out more about SDG #10 and other SDGs via the link:
